Part-no. known:

Part-no.: _____ quantity: _____ price/piece: _____

Part-no. not known:

short description of application:

manufacturer, engine-type: _____

idling speed: _____ rpm

output: kW HP _____

max. torque [Nm at rpm]: _____

running-speed: _____ rpm

engagement-speed: _____ rpm

working-machine: _____

connection to engine

cylinder-shaft

diameter: _____

keyway-wide: _____

shaft-length: _____

conical-shaft

diameter: _____

cone measurements: _____

cone angle: _____

cone-length: _____

flange

reference diameter: _____

quantity of bores: _____

bore diameter: _____

centering: _____

kind of transmission

cylinder-bore

diameter: _____

keyway-wide: _____

bore-length: _____

belt

type: _____

(SPA,SPB,SPZ,SPC)

diameter: _____

quantity: _____

counterpulley

diameter: _____

axle base: _____

master gauge for holes

reference diameter: _____

thread: _____

centering: _____

other connections please note here:

quantity: _____

price/piece: _____
